

building characteristics

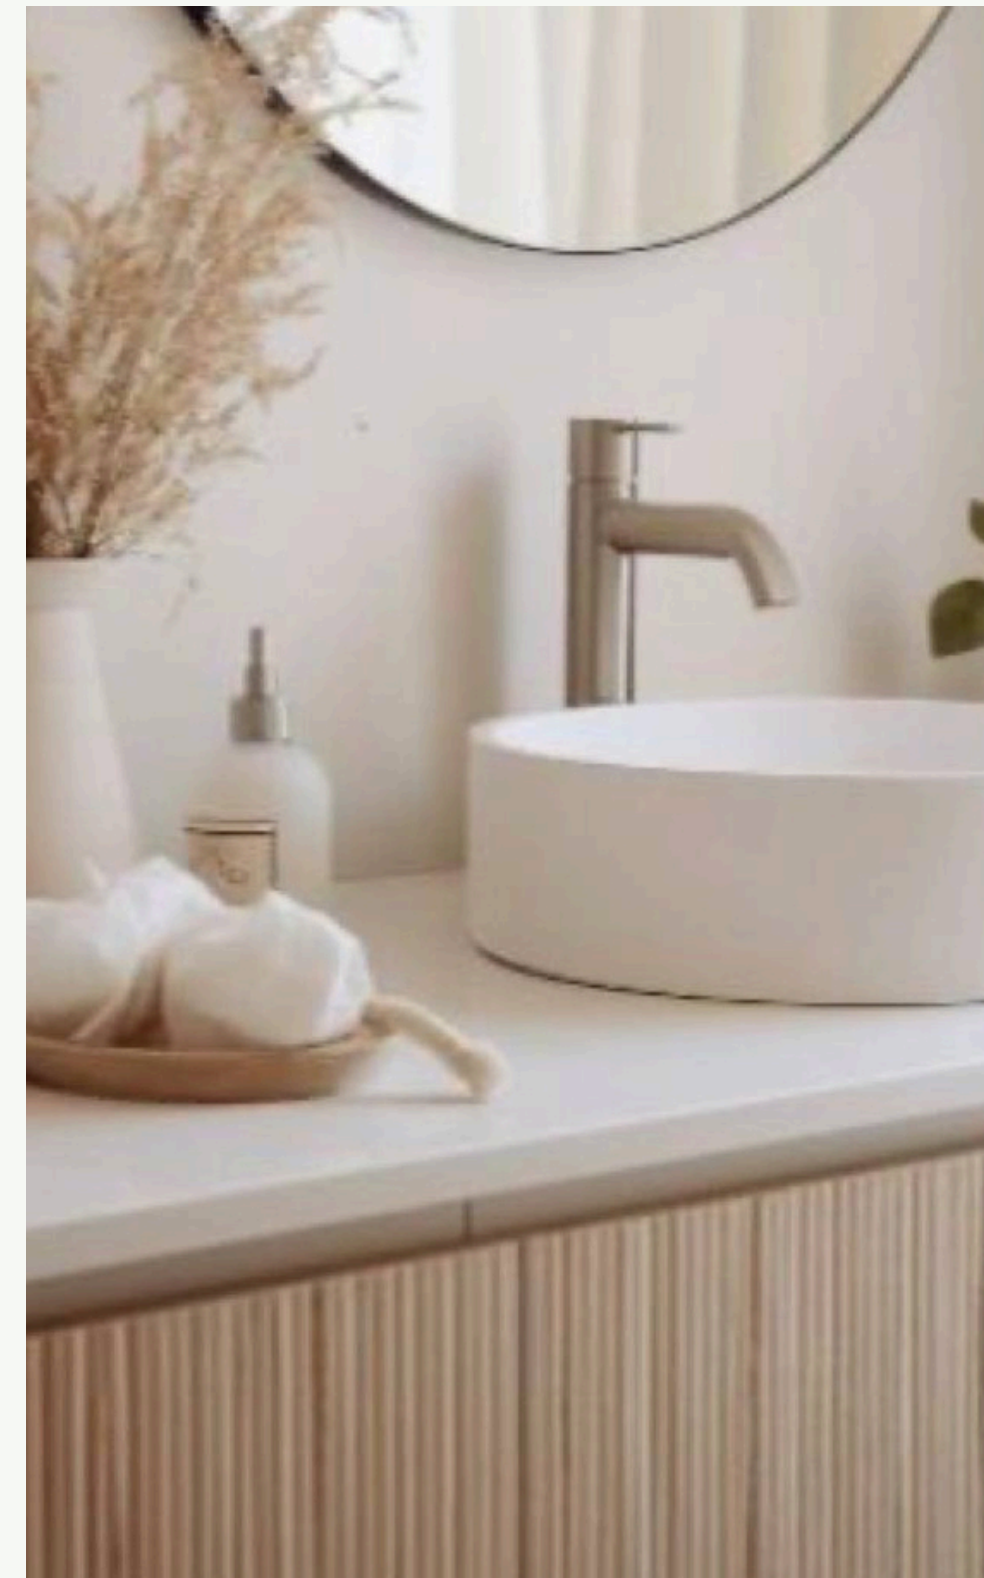

KITCHEN

The open kitchen will fit perfectly into the interior of the apartments. It is equipped with: functional modules with laminated doors, a countertop and a tiled apron, an oven/microwave, an induction hob, an extractor hood, a refrigerator and a washing machine. A single sink with a mixer is also installed.

BATHROOM

The bathroom is equipped with a wall mirror, a sink with a mixer tap, a toilet made of white ceramic porcelain. The shower cabins have a screen. The walls and floors are tiled.

CONVENIENCES

Each apartment has its own independent air conditioning system with hot and cold air supply through ducts with built-in equipment and centralized control.

Aerothermal system for domestic hot water.

The houses have electrical, television and broadband sockets that comply with the Low Voltage Electrical Regulations, including sockets on the terraces.

BEDROOM

The bedroom interior is made in neutral light colors.

The bedroom will have a bed, bedside tables and a built-in wardrobe.

EXTERIOR

On the roof of the building there will be a swimming pool for adults and children, as well as a common recreation area.

6 parking spaces will be available in the underground parking lot.
