Concept design

AESTHETICMOVEMENTAT ITS FINEST

Scheme's objective: sitting close to the town centre and benefitting from one of Estepona's last available prime beachfront locations, we have designed an unparalleled residential development drawing it closer to the sea, thereby cementing strong ties with the ocean, the undisputed protagonist. We have also made the most of the plot's existing grading to ensure the entire scheme faces onto the Mediterranean Sea.

Architecture: the project's design is intended to emulate the undulating movement of the sea and each element—floors, overhangs and recessed sections—is further envisaged in such a way as to afford spectacular sea views, all the way from the port of Estepona to the Rock of Gibraltar. In addition, the outdoor sun-drenched terraces ensure each property is unique and equally exclusive. Here, the soothing sound of the ocean will resonate and mark the rhythm of lifestyle.

Glass has a pivotal role and affords the homes almost infinite views.
