EXTERIOR

The terrace feels like an extension of the living room — same tones, same calm. Natural materials and soft hues extend the interior, while floor-to-ceiling windows blur the line between inside and outside. Surrounded by flora and subtle textile details, the terrace becomes a relaxing yet presentable outside space.

The background of the slide is split. The left side features a close-up photograph of wood grain, showing a dark brown upper section and a lighter, tan-colored lower section separated by a diagonal line. The right side is a light gray field with faint, white, wavy contour lines. A thin, dark blue rectangular border frames the right side of the slide.
